

Press Holder for Steel Type

Technical Brochure

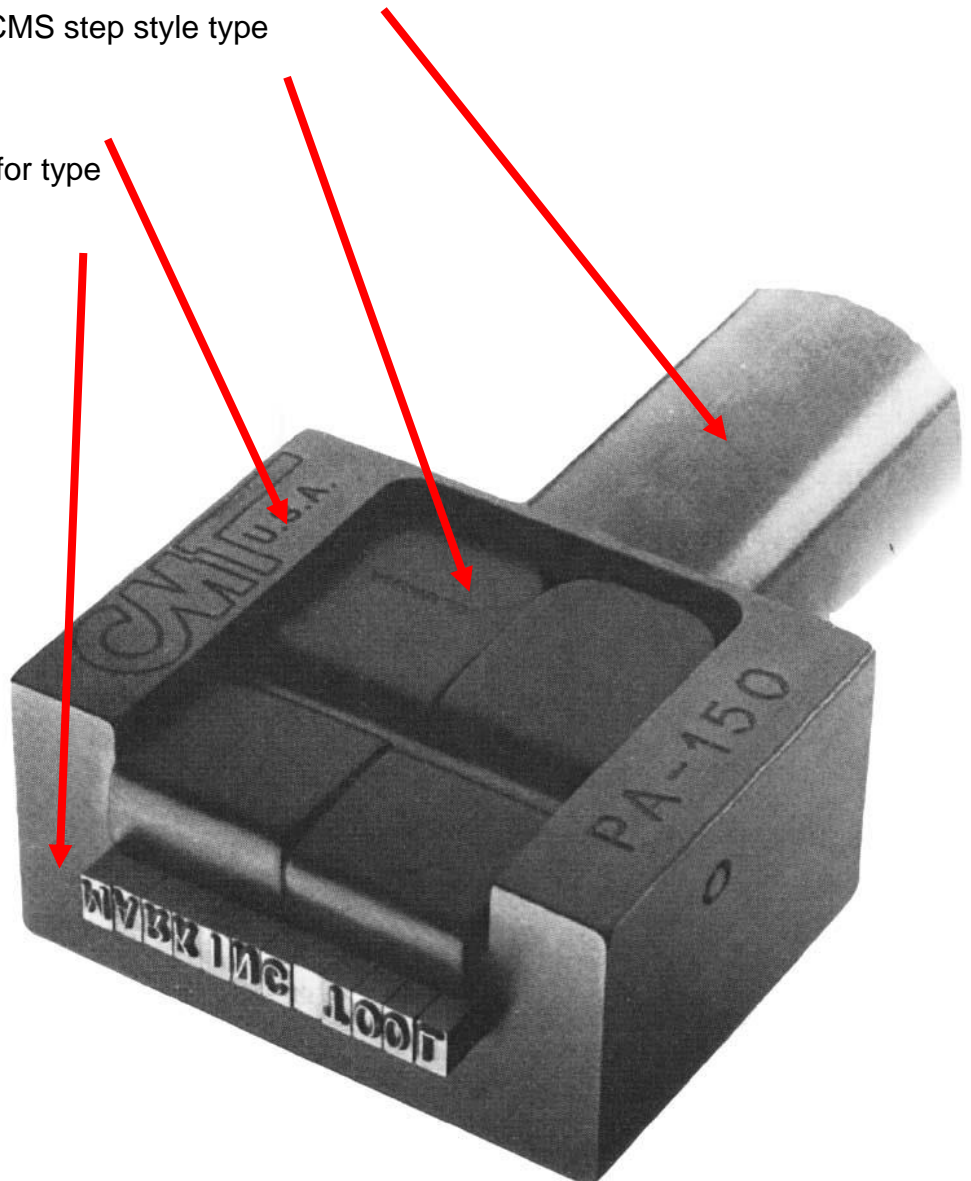

Press Holder General Use

Columbia Marking Tools press holders are heavy duty holders for steel type. These tools are used in a customer provided press to make an indentation mark in a part. The unique easy release mechanism makes marking legend changeover easy and quick.

The press holders are used to mark flat surfaces. The interchangeable type allows for a large variety of character combinations.

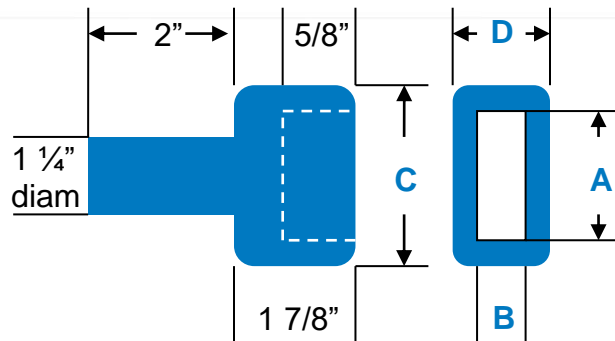

Press Holder Features

- Press shank 1 1/4" dia x 2" to mount in press.
- Easy release for CMS step style type
- Quality steel body
- Machined pocket for type
